

Have your say and help shape West Northants

Scan the QR code for further information and to give your feedback.

The closing date is **Sunday 6 December 2026**.

For help, or to request an alternative format, email LocalTransportPlan@westnorthants.gov.uk or telephone 0300 126 7000.

Road safety is fundamental to creating healthy, thriving and connected communities across West Northamptonshire. While our roads are safer today than in past decades, the reduction in casualties has slowed down in recent years.

Our draft **Road Safety Strategy** sets out a long-term plan to 2045, to make our transport network safer, reduce collisions and build confidence for everyone, however they choose to travel.

Our Road Safety vision is: **"Safer roads for all – achieved through strong partnership working, where no loss of life or serious injury is acceptable and everyone feels confident to travel"**

The strategy has a series of actions, building on and strengthening our existing programme of measures to achieve our vision. Some example are outlined below:

- Strengthening our Fatal Review Panel, working with partners
- Embedding best practice, such as the Safe System Approach in decision making
- Road safety education and cycle training
- Using emerging technologies particularly around near-miss monitoring
- Reviewing speed limits
- Using data to target speed enforcement in the right places

You can find out more by reading our [summary document](#), or attending one of our virtual drop-in sessions via Microsoft Teams. These sessions will include a short presentation followed by an opportunity to ask questions:

- **Monday 23 November from 10am to 11.30am**

If you would like to attend, please email LocalTransportPlan@westnorthants.gov.uk and we will send you a joining link.

Your feedback will help shape the final strategy before it is presented to Cabinet for approval in Spring 2027.
